About me

My name is **Stanisław**! I am a freshman at [University of Technology](#) (majoring in [information technology](#) at [IFE](#)). I love to learn new things and technologies that's why I am looking for first work experience. I would like to broaden my horizons with practical knowledge. I am enthusiast of group work and I love to experiment with creating new code! I am motivated and ready to work hard and develop my coding skills.

Projects

- [Portfolio](#): A webpage that serves as a hub for all my other projects (Next.js, Tailwind, Typescript).
- [Tic Tac Toe](#) is a WebSocket application that enables two players on different devices to play the game in real-time and chat with each other. The game also features a login and registration page and uses cookies for user authentication. The client-side of the game was built using React, Getstream, and Axios, while the server-side utilizes Express, Bcrypt, Cors, and UUID
- [Weather app](#): An extensive weather application that provides daily and hourly forecasts for a searched city or the user's current location. This project was built using React, Tailwind, and a weather API."

Technologies

- JavaScript/TypeScript
- React
- Node.js
- Next.js
- Tailwind
- Git
- linux
- C++

Languages

- Polish - native language
- English - C1
- German - B1

Education

- 2022 - now: [Lodz University of Technology](#) - [Information Technology](#)
- 2018-2022: [XII LO im. Stanisława Wyspiańskiego w Łodzi](#) - math and physics class

Interests

Chess

Mainly, I play chess online, but I also attend the chess club at my university. It also has numerous cognitive benefits, including improving memory and decision-making abilities it is a challenging, intellectual game that requires strategy and critical thinking.

Math

Since a young age, I have been preparing for and achieving great results in math contests and Olympiads. As a personal math tutor, I have always been passionate about the subject. It's like solving a puzzle, and I enjoy the challenge of finding the right solution.

Workout

Working out is giving me a sense of relief and is a great form of active rest. I keep on working out for a variety of reasons, such as improving physical fitness and health, reducing stress and anxiety, and boosting self-confidence and self-esteem.
